FRIDAY, Feb. 5-P. M.

The Stock market at the morning Board, with a fair

amount of transactions, was irregular and generally

heavy, although without the infusion of a panic which

prevailed for a while yesterday afternoon. Parties interested for the fall assisted the downward feeling by

hammering certain stocks, but without much effect.

The prevailing impression that the tendency of the

market will be ppward for the next few months at

least, and the increasing strength of the outside move-

ment, checks any fall before it assumes importance.

and reactions therefore follow each other with

more than usual rapidity. The bull party con-

tipue to exhibit great confidence in the future,

capital in the street and upon the gradual recovery of

the prosperity of the country. The most marked

change to-day was in Pacific Steamship Company, which fell off from 641 to 591, under the proposed

establishment of the new line of steamship; between

New-York and San Francisco. As Com. Vanderbilt, for

the Nicaragua Transit Company, forfeits \$40,000 per

menth by the establishment of this opposition, and is

joined in it by a party with whom he has long been at bit-

ter variance, the whole matter is looked upon in the

street with suspicion, as covering up some movement

not calculated at present to meet the eye. At the

Second Board there was a better feeling, buyers being

more numerous, and after the Board the transactions

showed a very buoyant market. The parties operating

for a rise came in strongly, and the closing quota-

tions show in most cases an entire recovery of

the decline of yesterday. The market appears to

be in a condition to feel sensitively the influence of favorable advices from Europe, while

unfavorable news from any quarter would have but a temporary effect. The closing prices for Eric

are 24 a 24]. The January traffic, it is thought, will

settle up \$60,000 or \$70,000 better than January, 1857.

Central closed at 814. Reading 574 # 574, Panama was

very firm at 94]. The establishment of the new line

of boats is looked upon as calculated to increase the

revenues of this road, and we hear that four hundred

tickets were taken to-day for it. The trade between

Panama and the coast toward the North which was

opened by the monthly trips of the Columbus is rapidly growing in importance. That steamer brings full cargoe every trip, and the Company intend to

put another boat on the line as soon as a suitable one can be procured. On a recent trip, the Columbus

LAGER BEER NOT AN INTOXICATING DRINK .- The trial of Jacob Staats on the charge of violating the Sunday law, in selling lager beer, was finally concluded in the Circuit Court yesterday. The District Attorney brought forth witnesses to show that lager beer was an intoxicating drink, and as such came within the provisions of the act which prohibits the sale of intexicating beverages on Sunday. The statements of some of the witnesses for defense were designated as extravagant by the District Attorney, and unworthy of belief.

On the part of the defense it was contended in the emming up that the law made a distinction between intexicating drinks and light beverages, and that the law did not comprehend lager beer, but strong beer and alcoholic liquors; that the peopls were bound to make out, as a general rule, that lager beer was an ntexicating drink, and they had utterly failed in se doing; that they simply proved an exception to the rule, and that of a slight character and by a very few witnesses; that the defense had shown by overwhelming testimony that this beverage did not produce in toxicating effects, as was the case with intoxicating

The Judge (Strong), in his charge, reviewed the evidence at some length, and the Jury retired about 12 o'clock. They remained in session until 31 o'clock, when they returned into Court with the following verdict: " That they (the Jury) find for defendants, " believing that lager beer, which does not contain " more than 3} per cent alcohol, does not come within "the statute in relation to intoxicating drinks." It will thus be seen that lager beer is not intoxicating. taking the finding of the Jury as correct.

COUNTERFEIT BILLS .- A number of counterfeit \$5 bills on the Merchants' Bank of Lowell, Mass., were passed at stores in Atlantic street on Thursday evening.
The figure 5 on the right and left upper corners are crossed and recrossed with partly curved lines. On the right lower corner is the figure of a female sitting on a rock, with hoe, pickax and shovel by her side On the left lower corner is a figure of Gen. Taylor, and above the President's signature is the Massachusetts coat of arms. The names of John N. Pierce, Cashier, and Haslin Pillsbury, President, are signed in a legible band.

Robbert of a Pork-Packing Establishment.—
Officers Itwin and Thompson of the Third Precinct Police recently discovered that a regular system of robbery had been carried on for some months past from the pork-packing establishment of Wm. B. Barker, at Red Hook Point. They watched for some days, and at length discovered a wagon loading at the door. After the load had been put on, it was covered over with scraps, so as to prevent detection. The officer at once arrested two men in charge of the wagon, and found that it contained a quantity of lard. Suspecting that the hands in the establishment were implicated, they arrested the foreman of the killing department and two of his men. Subsequently Capt. Shauman and Officer Ferry of the same Precinct discovered nineteen barrels of lard stored away in the forecastle of a pig-barge, and nine barrels of pork in the barge Jersey Blue lying off the Point. It has since been ascertained that large quantities of pork and lard had been carried off in lighters from time to time. Some \$600 worth has thus far been recovered; but it is thought that thousands of dollars worth have been stolen in this manner during the Winter. The parties under arrest will be brought before Justice Blackly for examination on the charge against them. The officer at once arrested two men in charge of

THE NEW DISPENSARY.—At the annual election of efficers of the Brooklyn Dispensary, just held, Mr. Wm. H. Peck (postmaster) was chosen President, Wm. H. Hallock, Vice-President, John S. Mackay Treasurer, and W. A. Walker Secretary. This institution, though only in its second year, has entered upon a career of eminent usefulness—in evidence of which 4,110 patients received medical treatment last year, and not less than 21,354 prescriptions were gratuitously dispensed. The number of deaths was 17.

PICKPOCKETS AT CHURCH,-At a meeting in the PICKPOOKETS AT CHURCH.—At a meeting in the Congregational Church corner of President and Court streets, on Thursday evening, several persons were relieved of their pocket-books. The discovery being made, the police were sent for, and the doors were closed to prevent any person from leaving. Two ladies, however, impressed the docrkeeper with the belief that it was necessary for them to leave, and they were permitted to go. The pickpeckets were not discovered, but several pocket-books, emptied of their contents, were found outside afterward.

A woman named Ann Brown, was arrested by Officer Museon on Thursday night for obtaining goods at a number of stores in Atlantic street, by fishely representing that she bought them for another party. She was held for a hearing. OBTAINING GOODS UNDER FALSE PRETENSES .-

Mr. HUTCHINSON doubted whether this amend Mr. HUTCHINSON doubted whether this amend ment could be legally made. As documents are presumed to be for the benefit of the people, there is no proper objection to the prepayment of postage upon them. But letters are equally presumed to be private, the postage upon which should be paid by members. He should oppose the amendment.

Mr. LYNCH received three dollars a day for his services, and he was taxed about half that sum for postage. He would limit the letter postage to letters ent.

Mr. HUTCHINSON replied, giving additional reasons for opposing the amendment.

Mr. LANING also opposed the amendment. It was an attempt to get round the Constitution.

Mr. EMANS was opposed to taxing the people to pay for his private correspondence.

Mr. HUBBARD thought postage should be paid on letters sent by members; but, in view of the existing statute, he could not vote for the amendment. The provision, however, should be made. If it was not, the time would soon come when a poor man could not afford to hold a seat in the Legislature.

the time would soon come when a poor man could not afford to hold a seat in the Legislature.

Mr. DAYTON alluded to the expense which members are put to in holding a seat in the House, and favored the idea suggested by the amendment. Members of Congress have a frank, why should not the postage of members of Assembly be paid? This question of postage was but a paltry affair. If larger matters were attended to, the State could well afford to pay the letter postage of members.

Mr. HUICHINSON further opposed the amendment.

Mr. HANFORD thought it was more important that etter pestage should be paid than the p stage on the creat mass of waste paper that is sent off under the

clonk of documents.

Mr. BARNES thought the Constitution so fixed the compensation of members that it would be improper to pay their letter postage.

Mr. LYNCH was aware of the provision of the Constitution. It alluded to the per diem allowance only of members. All other State officers had their postage paid. Why should not Members of Assembly! letter postage violated the Constitution, so did

ocument postage.

Mr. ENGS thought the document postage was unonstitutional, and he was disposed to vote against to hil. But he never could sanction the idea of he amendment. It was wholly improper. He was not for parsimenious legislation, but he would be discreet in his liberality. If the pay of members is not suffi-cient, let its increase be boildly suggested; but do not report to these sideway modes of getting a little more

than the law allows.

Mr. BEACH proposed to amend, so as to require members' board and washing to be paid by the State.

[Ruied out of order.]

Mr. LAW proposed an amendment, that postage should not be paid on members' speeches, and only on such letters as members shall certify to be on public
